

Continuous Education Activities

Align with EAB (Education Activities Board) Continuous Education activities mainly related with Professional Development. New Virtual Conference environment may bring a new aspect of networking and peer communications that must be explored

Coordinator:

- Giannis Mousmoutis (Greece)
- Corresponding member

Continuous Education Activities

Mission

- Prepare and conduct educational programs designed to support the IEEE Region 8 members during their professional career with particular emphasis on continuing education and career development

Continuous Education Activities

Goals

- Raise interest about Continuing Education, its benefits and its programs across R8
- Provide members with educational content of various technological and non-technological fields
- Increase the amount of provided webinars for IEEE R8 volunteers
- Organize activities mainly oriented to Young Professionals on Industry related topics

Continuous Education Activities

Activities

- Promote Continuing Education news and activities via social media and email
- Create a directory of the past webinars in order for them to be easily accessible at the R8 website
- Organize a webinar series on the field of Internet-of-Things
- Contact each R8 Section for discussing a possible follow-up IoT workshop in their Section
