• CAS04/CIS011/CS23:		Vesna Ojleska	
• Membership Develop:		Ljubomir Nikoloski	
• GOLD coordinator:		Dimitar Trajanov	
• Student coordinator:		Pero Latkoski	
• Student representative:		Mite Mitreski	
• WIE:		Iliana Kareva	

Membership:

The IEEE Macedonia section has in total 215 active members by the end of February.

The member counts by grade is: 1 fellow, 1 life senior member, 21 senior members, 85 members, 32 graduate student members, 70 student members, 4 associates, 1 affiliates. Our expectation is that the student's membership will be increased in the half-year subscription.

Date of above results by using SAMIIIIE: 18 July, 2011

Meetings and other activities:

During the period March 2011 – August, 2011, our Section organized: 5 technical meetings and 2 administrative meetings.

The Section has supported the student activity: Workshop on Renewable Energy (1-8 May 2011)

Also the section has sponsored the Second International Seminar on Magnetic Resonance Imaging held in Ohrid (15-18th June 2011)

The PES Chapter has been awarded \$760.00 by the IEEE PES

At the beginning of this year we have appointed new student coordinator. His activities resulted in 55 new student members.

The section has appointed the secondary delegate for SC 2011

Activities in the near future:

The first thing to do is to develop web pages for the chapters that don't have one. The activities have been started. The section will increase the cooperation with the ICEST conference series and will support the organization of the national ETAI 2011 conference. Membership development activities are planned, especially among the engineers working in companies other than Universities. The preparation for the election of Section officers for 2012-2013 term has been started.

Best practices:

Section ExCom is collecting membership fees from students in local currency and fees are paying directly to IEEE from Section custody account.

Report submitted by: Goce L. Arsov, Chair of the Macedonia Section
