	Member	Active	171
	Senior Member	Active	26
	Student Member	Active	287

Total 517

Date of above results by using SAMIEEE:
September 20 2010

Activities:
The section had a new election for the Computer and Computational Intelligence Joint chapter society where a new chair, vice chair and secretary were elected.

Students being the largest group in the section remain very active within the university. The section supported the attendance of two student representatives to the R8 Student Congress held in Belgium where they were awarded prizes for exemplary student chapters and the Darel Chang award.

The section also continues to sponsor a series of technical lectures in cooperation with the departments of Computer, Electrical and Mechatronic Engineering in the Faculty of Engineering and Technology at the University of Jordan which is the largest university in the country. This series has proved to be very successful and covers a whole variety of topics.

The section technically sponsored the 7th International Multi-Conference on Systems, Signals & Devices which was held in the period of 27-30 June 2010. The section was awarded the University shield for its part.

Activities in the near future:
The section will continue with its series of lectures at the University of Jordan and at other locations. Also, cooperation in the form of many joint events are planned with both the Jordan Computer Society and the Jordan Engineers Society. These will cover technical lectures, social events, technical trips etc.

The section is a main sponsor for IEEE Educon 2011 which is to be held in Amman, Jordan in the period 4-6 April 2011.

Also, the section is planning a workshop with the cooperation of Microsoft Jordan on Natural Language Processing (NLP) in the coming new weeks. This is expected to be the start of a new long relationship between the section and Microsoft.

Best practices:
Continuous cooperation with other national technical institutes in the country. This has proved to be extremely useful.
The continues cooperation with academic departments in major universities.
