**Best practices:**

The section is proud on its student members, which makes 39% of our IEEE population. They are vivid and very active. Beside regular meetings and gatherings, they collaborate with other students organizations. Especially, connections with EESTEC and BEST organization and their local committees are frequent and fruitful. In past two years two major student conferences have been jointly organized. Also, IEEE members provide technical support during EESTEC exchanges by lecturing or organizing workshops.

Students are present in international events, too. Their representatives have participated actively in Student congresses in Paris, Passau and Cairo.
