# **IEEE Region 8 Director's report**

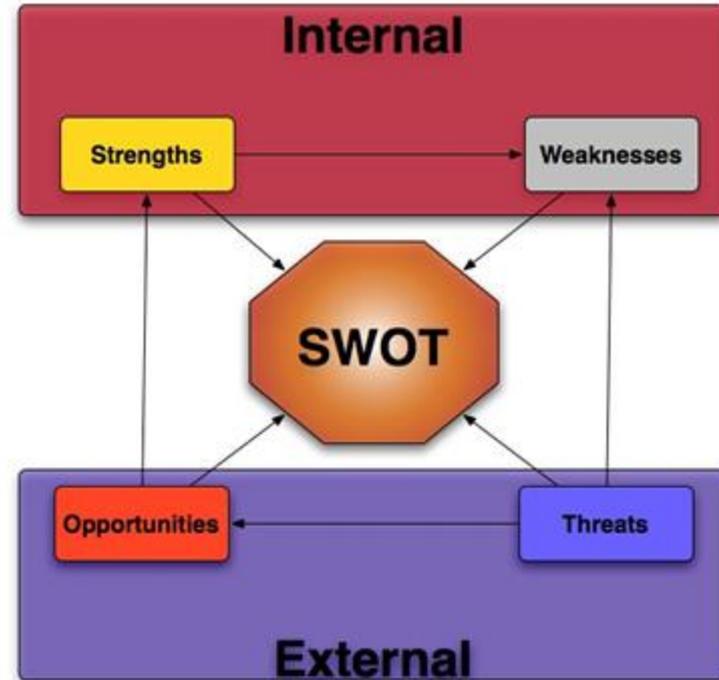

**Marko Delimar**  
**31 March 2012**

# Remembering Roger Pollard

- **Region 8 remembers Dr. Roger Pollard, a prominent British engineer and educator**
- **Roger passed away on 3 December 2011 while serving as the Secretary of IEEE and a member of the IEEE Board of Directors**
- **Roger had served in numerous key volunteer positions – within TAB, MTT Society, UKRI Section, Region 8, the IEEE Awards Board, the IEEE Finance Committee, the IEEE Strategic Planning Committee, and the IEEE Publications Services and Products Board**
- **Among his many IEEE achievements: he provided the leadership which led to the creation and launch of the online IEEE Xplore digital library**

# AN ABBREVIATED S-W-O-T ANALYSIS -- UPDATE --

# Strengths

- **Strong and dedicated volunteer corps**
- **Volunteer leadership development and succession planning**
- **A large number of active and vibrant organizational units**
- **Diversity of Members and Sections**
- **Tradition of exchange of ideas and best practices**
- **Established infrastructure for Region's activities, including conducting conferences, workshops, and student activities**

## Weaknesses

- **The size of the Region is incongruous with the resources available for its administration**
- **IEEE market share in key areas is low**
- **There are significant areas within the Region where IEEE visibility is very low**
- **The disparity between different Sections in the Region does not support some “one size fits all” practices of IEEE**
- **The operations of the Region are not optimized to take advantage of available cooperation and funding opportunities**

# Opportunities

- **Cooperation with local associations, governmental/intergovernmental organizations, and educational institutions**
- **Cooperation with EU institutions, especially in the areas of Standards, Education and Accreditation**
- **Member recruiting drives**
- **Development of new IEEE OUs**
  - This activity requires area-specific activities and creative solutions
- **Conference activities in R8**
  - Toward IEEE-owned conferences and surplus generating conferences for R8
- **Accreditation opportunities (e.g., GCC)**

# Threats

- **Loss of members to aggressive recruiting by other local and global associations**
- **Expanded activities of commercial publishers and conference providers in IEEE Fields of Interest in the Region**
- **Perception of IEEE as "US-centric"**

## Several questions

- **How well do we know our members?**
- **What can we do to increase member satisfaction?**
- **What can we do to increase member/volunteer engagement?**
- **What can we do to increase the visibility of IEEE OUs (Sections)?**
  
- **Some of these important questions will be discussed during the afternoon workshops.**
