

## **IEEE Switzerland Section Report**

### **1. Highlights from the past**

- Talk about Square Kilometer Array project
- IEEE day with Fablab workshop
- Smart Grid World Forum

### **2. Future activities**

- General Assembly at Research Center for Microelectronics (CSEM) in Neuchatel

### **3. Best practices**

- Course on Technical English (Top ten of errors found during editing technical papers) always booked out.

### **4. Points of concern / Topics for future discussion**

- IEEE still does not reach the students of the technical colleges, though several events were organized

### **5. Miscellaneous**

Student branches increasingly active, in addition to EPFL, also Lugano and to some degree ETH
