Points of concern / Topics for future discussion

- There should be an online meeting (in the very beginning) of the Geographic Activities Supervisor with the Regional Coordinators, where the role and the tasks of the coordinators should be clarified. Alternatively a Time Lined to do list for coordinators would have been created.
- There should be an (online) meeting (in the very beginning) of the Director or Op Com with the Regional Coordinator, where the schedule, the role and the tasks of the Regional Coordinator should be discussed and defined.
