

Saudi Arabia (East) Section

Muhammad Ibrahim Al Dhamen

Getting Closer to Industry

- Visits to Industrial Organizations
- Promoting IEEE Membership with Industry Professionals

Students and Young Professionals

- Continuous visit and interaction with the Students encourage and attract them to IEEE Activities.
- A new Team has taken up the leadership of the the Saudi Arabia Young Professionals Group recently.

Section Vitality

- Helping members to process payments using an Officers credit card increases customer satisfaction and the membership retention rate
- Implement programs that would highlight membership benefits.

Miscellaneous / Recommendations / Feedback

- New Initiative: The 9th IEEE GCC Conference & Exhibition is being planned for November 2016 in Bahrain.
- Concern: IEEE name used by non-IEEE entities. Saudi Arabia Section has found that two of its original domain names have been hijacked by unscrupulous entities (1. www.ieee-energycon.org 2. www.ieeegcc.org). Can IEEE help to reclaim back these web domains?
