Improving the Region 8 award nomination process

Nominations for Region 8 awards are currently handled in an inconsistent way, with the nomination process being award-specific and done through a mix of offline and online forms submitted to different endpoints. In order to streamline the process, we are working with MGA staff to unite all awards under the FluidReview platform already in use at the global level. This will provide a single point of information and a standard interface, making it easier for members to submit nominations.
