WANDA REDER

IEEE FELLOW

CANDIDATE FOR 2017 IEEE PRESIDENT-ELECT

My ambition as 2017 IEEE President-Elect is to advance IEEE through increased engagement, relevancy and membership value.

My goal is to further recent IEEE Board of Director's strategic planning efforts by aligning priorities, resource allocation, financial investments and IT development with long-term aspirations.

I will advocate that members' Constitutional safeguards are maintained through an IEEE structure that is member-governed based on a balance of activity, technical, and regional representation.
