# Vision

IEEE is a **membership**-driven organization and I strongly believe it should remain this way.

To achieve this, we need to **engage** members and make them **involved** in IEEE activities. **Volunteering** is key.

All activities under VCMA will have **member satisfaction** as top priority. Satisfied members will become better volunteers and ambassadors and will help IEEE grow.

New **tools** are needed and will be developed to help volunteer coordinate their actions.

Agile **communication** with other units (MGA, Sections,...) will be a key part in the success of these tasks.
