QUESTIONS!

Q 1

Time 5 s

VS

Describe how and why your previous experience in IEEE governance can guide and help your future programs as IEEE President Elect.

What is the most crazy/inappropriate thing you have ever done in IEEE?

What was your biggest disappointment during
your IEEE “career”?

Who are you?

What is your strategy for IEEE activities in Africa?
and what are the countries that you visited in Africa
during the last 5 years?

Q 7

Time 30 s

Tell a joke

For you, what's the weakest link in our organization?
And what would you do to improve it?

What is your strategy about the role of IEEE in Europe and the IEEE Europe office in Vienna?

How do you intend to engage and enrich the
Young Professional development towards
academic and industrial innovation and creativity?

Sing a song.

What would you do to ensure that the Student Membership retention would improve?

What is your position on fake news/alternative facts and the role technology (e.g., social networks) play in it?

What are you going to do to make the IEEE less US-centric?

Give 3 concrete problems that you are planning to find solutions for if elected

What are the qualities you do not have and that the other candidate has?

If you win the election, who is the first person you are going to tell and how are you going to celebrate?

Climate change: myth or reality?

Q 19

Time 30 s

In your opinion, does the IEEE support volunteers enough?

What are the three most important qualities/aspects of IEEE that will have changed after your presidency?

What is your most important contribution when it comes to
"advancing technology for humanity"?

When was the last time you logged in
to IEEE Collabratec™?

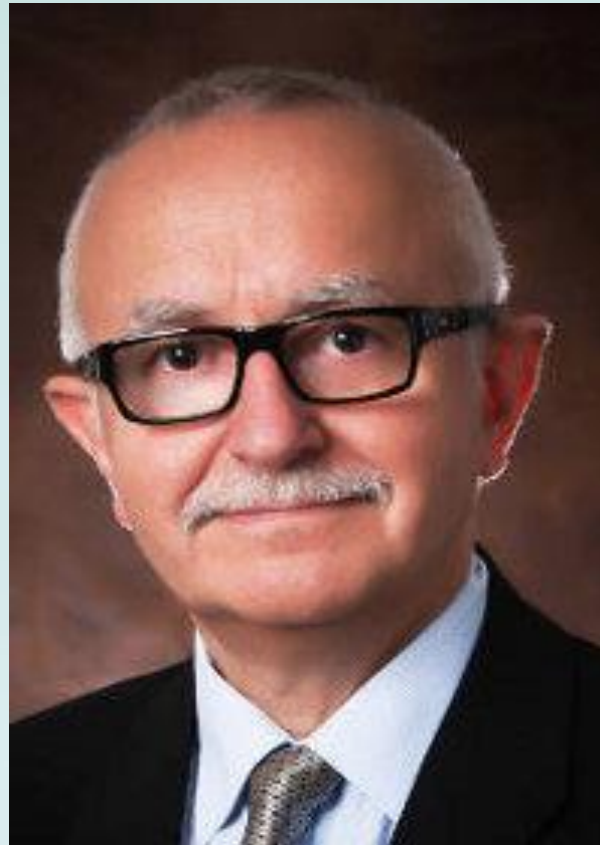

Tell another joke
