https://enotice.vtools.ieee.org.

#### **Development support**

- IEEE ResumeLab: Online service that allows members to develop a resume or curriculum vitae using a wide array of templates. Members can also perform mock interviews using over 900 potential interview questions or develop letters, portfolios, and skills assessments to use during the interview process. Best of all, the information developed is easily shared with potential employers, mentors, or colleagues via a personalized website. <u>link</u>.
- Center for Leadership Excellence (CLE): One-stop training solution offering a simpler and effective learning experience. <u>https://ieee-elearning.org/CLE</u>.

- Student: At least 50% of a normal full-time academic program as a registered undergraduate or graduate student in a regular course of study in IEEE-designated fields.
- Graduate student: At least 50% of a normal full-time academic program as a registered graduate student in a regular course of study in IEEE-designated fields.
- The total cumulative period for a member to hold the Student member grade and/or the Graduate Student member grade is limited to eight years.
- Student members or Graduate Student members, upon graduation or upon reaching the total cumulative eight-year limit as a Graduate Student member (whichever occurs first), will be transferred automatically to member grade.

- Associate: Technical and non-technical individuals who do not meet the qualifications for member grade but who wish to benefit from membership and partnership in IEEE, and for those who are progressing, through continuing education and work experience, toward qualifications for member grade.
- Student members outside of the IEEE-designated fields, upon graduation or upon reaching the eight-year limit (whichever occurs first), will be transferred to Associate member grade.

16

- Member: Those who have satisfied IEEE-specified educational requirements and/or who have demonstrated professional competence in IEEE-designated fields of interest. For admission or transfer to the grade of member, a candidate may be either:
  - An individual who has received a three- to five-year universitylevel or higher degree from an accredited institution or program and in an IEEE-designated field,
  - An individual who has received a three- to five-year universitylevel or higher degree from an accredited institution or program and who has at least three years of professional work experience engaged in teaching, creating, developing, practicing, or managing in IEEE-designated field,
  - An individual who, through at least six years of professional work experience, has demonstrated competence in teaching, creating, developing, practicing, or managing within IEEE-designated fields.

- Senior: Highest grade for which application may be made. Requires experience reflecting professional maturity. A candidate shall be an engineer, scientist, educator, technical executive, or originator in IEEE-designated fields and shall have been in professional practice for at least ten years and shown significant performance over a period of at least five of those years, such performance including one or more of the following:
  - Substantial responsibility or achievement in IEEE-designated fields,
  - Publication of papers, books, or inventions in IEEE-designated fields,
  - Technical direction or management of important work with evidence of accomplishment in IEEE-designated fields,
  - Recognized contributions to the welfare of the professions encompassed by IEEE-designated fields,
  - Development or furtherance of important courses in one or more of the IEEE-designated fields at an institution in the REP list,
  - Contributions equivalent to those of the above areas related to IEEEdesignated fields, provided these contributions serve to advance progress substantially in IEEE-designated fields.

- Fellow: Recognizes unusual distinction in the profession and is conferred only by invitation of the Board of Directors upon a person with an extraordinary record of accomplishments in any of IEEE's designated fields of interest.
  - The candidate shall hold Senior member grade at the time the nomination is submitted.
  - Normally, the candidate shall have been a member in any grade for a period of five years or more preceding 1 January of the year of election; however, the five-year membership requirement may be waived for a Fellow candidate who has been engaged in professional practice (as needed to qualify for Senior member grade) in a geographical area where, in the judgment of the Board of Directors, it was difficult to become a member previously, as evidenced by the absence of a Section previously and the recent formation of a new Section to cover that geographical area. In such case, membership of five years or more in a recognized local electrical, electronics, or computer-engineering society may substitute for the five-year IEEE membership requirement, when the nomination is submitted within four years after the formation of the new Section.

#### **Other categories**

- Life member: Member who has reached the age of 65 years and who has been a member of IEEE (or one of its predecessor societies) for such a period that the sum of his/her age and his/her years of membership equals or exceeds 100 years.

5. Short overview of Member and Geographic Activities

## Member and Geographic Activities

- IEEE Member and Geographic Activities (MGA) is focused on supporting and meeting the members' needs and IEEE membership recruitment and retention strategies and implementation. IEEE local geographic organizational units (Sections, Chapters, Affinity Groups, and Student Branches) provide unique opportunities for members to attend technical presentations, create strong peer-to-peer connections, and participate in leadership opportunities that can make a positive distinction in IEEE members' jobs and careers.
- The IEEE Member and Geographic Activities Board (MGA Board) is responsible to the IEEE Board of Directors, has oversight of IEEE geographic organizational units, and is responsible for IEEE membership and member development.

## Member and Geographic Activities

## MGA mission

- Inspire, Enable, Empower and Engage Members of IEEE.
- For the purposes of:
  - Fulfilling the mission of IEEE,
  - Enhancing the members growth and development through their life cycle,
  - Providing a professional home.

### **MGA** vision

#### **Sections Congress**

- IEEE Sections Congress is a triennial gathering of Section leadership sponsored by the Member and Geographic Activities (MGA) Board.
- It is the one major meeting sponsored by IEEE that brings together the grassroots leadership of IEEE so that they can share ideas, concerns, and solutions.
- It is also a forum where the Section Chairs speak as the collective voice of IEEE members, expressing ideas about how IEEE can better serve its members, both now and going forward. The issues generated at Sections Congress have had a major impact on the plans made by the IEEE leadership for the future of IEEE.
- It involves hundreds of delegates from all ten Regions who have a unique opportunity to learn how to utilize the resources of IEEE to maximize their effectiveness as IEEE volunteer leaders.

#### **Sections Congress**

- With workshop, panel, and tutorial sessions held on topics of interest to the Sections during several days of working sessions and **networking**.
- Each Region prepares recommendations that are voted by all Sections Congress delegates. The top five are considered by MGA and IEEE for their plans.
- Next Sections Congress:
  - Sections Congress 2017 in Sydney, Australia, at the International Convention Centre, from 11 to 13 August 2017.
  - Theme: Brilliant Minds, Bright Futures

### Center for Leadership Excellence 1

#### www.ieee.org/cle

- The IEEE Center for Leadership Excellence (CLE) serves as the repository for all leadership training material within IEEE to ensure IEEE keeps pace with its evolving organization.
- Additionally, it will meet the needs of IEEE volunteer leadership by providing materials that will enable volunteers to accomplish their jobs efficiently and effectively, thus allowing them to spend more time ensuring that members are engaged in IEEE activities so that IEEE member satisfaction and relevance continue to grow.

### Center for Leadership Excellence 2

- The IEEE CLE makes information easily available with a Learning Library in key areas of education and training. This Library will be updated regularly with new courses as they become available.
- Volunteers will now benefit from having access to full course material for their positions which will provide a one place to go for all their training needs. This includes a Quick Start module to help come up to speed during their first 30 days in their position, a job description for their role, time line of key dates and recommended training modules that support the particular aspect of their role.
- www.ieee.org/cle contains an IEEE Glossary!

6. Rules of order during Region 8 Committee meetings

## **Rules of order**

#### Rules of order, also known as standing orders or rules of procedure,

are the written rules of parliamentary procedure adopted by a deliberative assembly, which detail the processes used by the body to make decisions.

IEEE Bylaws I-300. Management

**Robert's Rules of Order** shall be used to conduct business at meetings of the IEEE Board of Directors, Major Boards, Standing Committees and other organizational units of the IEEE unless other rules of procedure are specified in the Not-For-Profit Corporation Law of the State of New York, the IEEE Certificate of Incorporation, the IEEE Constitution, these Bylaws, the IEEE Policies, resolutions of the IEEE Board of Directors, or the applicable governing documents of those organizational units provided such organizational documents are not in conflict with any of the foregoing.

## Origins

- Henry Martyn Robert:
   Pocket Manual of Rules of Order for Deliberative Assemblies, February 1876.
- Loosely modelled after rules used in the United States House of Representatives.
- Robert was an active member of several organizations. To help simplify and organise meetings, he decided to write a manual that would enable organizations to adopt a parliamentary procedure.

## **Rules of order in R8 Committee**

- All members of the Committee have equal rights to participate and take part in debate, except that non-voting members do not have the right to vote.
- Substantial parts of a meeting are organised in an informal way.
- Formal parts of meetings are normally conducted in accordance with Robert's Rules.
  - Robert's Rules are not well known in the countries of Region 8, it cannot be assumed that the R8 Committee members have more than a superficial familiarity with these rules, and this must be allowed for in the conduct of the meetings.

for Humanity

- The Chair should enable an orderly debate to take place on all issues, and allow equal and fair rights to all members of the Committee.
- During formal debates, the Chair must take a neutral position and may only vote in the case of secret vote or to break a tie.

95 2017-05-09

## Main ideas

- Rules of order are used to simplify the parliamentary procedure, not to complicate it.
- Everyone has the right to speak once if they wish, before anyone may speak a second time.
- Everyone has the right to know what is going on at all times.
- Only urgent matters may interrupt a speaker.
- The members discuss one thing at a time.

## The basics of the rules

- One thing at a time. Only one main motion is allowed on the floor at a time, but there is a system to put that motion aside if something more urgent comes up.
- One person, too. Only one person may talk at a time.
- And only one time per meeting. The same motion (or practically the same) can not be made more than once per session; the only exception is if a member changes his or her mind.
- Enough of us have to be here to decide. The group determines the minimum number of people (called a quorum) that must be present to make a decision for the whole group.

Nancy Sylvester, "The complete idiot's guide to Robert's rules," ISBN 1-59257-163-8, Alpha, Indianapolis, IN, 2004.

## The basics of the rules (cont'd)

- Protected even if absent. The rights of the members who are absent are protected.
- Vote requirements are based on members' rights. The determination of what kind of vote is needed (such as majority, two-thirds, ...) is based on members' rights. If an action gives rights to the members, it requires a majority vote to pass. If an action takes away rights from members, it requires a two-thirds vote to pass.
- Silence = consent. If a member chooses to abstain from voting, that member is giving his or her consent to the decision made by the group.
- Everybody is equal. All voting members have equal rights. The majority rules but the minority has the right to be heard and to attempt to change the minds of the majority.

#### You want to bring up a new idea before the group.

- After recognition by the chair, present your motion.
- A second is required for the motion to go to the floor for consideration (and the motion now belongs to the body).
- You want a motion just introduced by another person to be killed.
- Without recognition from the chair, state "I <u>object to consideration</u>."
- This must be done before any debate.
- This requires no second, is not debatable and requires a 2/3 vote.

# You want to change some of the wording in a motion under debate.

- After recognition by the chair, <u>move to amend</u> by adding words, striking words or striking and inserting words.
- This may be recognised as a **friendly amendment** by the person (or body) who proposed the original motion.

#### You like the idea of a motion under debate, but you need to reword it beyond simple word changes.

- Move to substitute your motion for the original motion.
- If it is seconded, debate will continue on both motions and eventually the body will vote on which motion they prefer.

#### You feel the motion addresses two or more separate issues.

- Move to divide the question.
- You want more study and/or investigation given to the idea under debate.
- Move to refer to a committee.
- Be specific as to the charge to the committee.
- You want more time personally to study the proposal under debate.
- Move to postpone to a definite time or date.

#### You want to postpone a motion until some later time.

- Move to table the motion.
- The motion may be taken from the table after one item of business has been conducted.
- If the motion is not taken from the table by the end of the next meeting, it is dead.

#### You have heard enough debate.

- Move to call the question; this cuts off debate and brings the assembly to a vote on the pending question only.
- Requires a 2/3 vote.

#### You want to take a short break.

Move to recess for a set period of time.

#### You want to end the meeting.

Move to adjourn.

# You are unsure that the chair has announced the results of a vote correctly.

- Without being recognized, call for a "division of the house."
- At this point a standing vote will be taken.
- You are confused about a procedure being used and want clarification.
- Without recognition, call for "Point of Information" or "Point of Parliamentary Inquiry."
- The chair will ask you to state your question and will attempt to clarify the situation.
- You have changed your mind about something that was voted on earlier in the meeting for which you were on the winning side.
- Move to reconsider.
- If the majority agrees, the motion comes back on the floor as though the vote had not occurred.

## **Summary of RRO**

#### You may INTERRUPT a speaker for these reasons only:

- to get information about business point of information
- to get information about rules parliamentary inquiry
- if you can't hear, safety reasons, comfort, etc. question of privilege
- if you see a breach of the rules point of order
- if you disagree with the chair's ruling appeal
- You may influence WHAT the members discuss:
- if you would like to discuss something motion
- if you would like to change a motion under discussion amend
- You may influence HOW and WHEN the members discuss a motion:
- if you want to discuss the topic at another time postpone or lay it on the table
- if you think people are ready to vote call the question
