

Iran Section

Ahmad R. Sharafat

What activities/programs/initiatives work well in your Section to foster Industry Relations? What changes would be required by IEEE/the Region/your Section to improve Industry Relations? What were major successes since the last meeting in terms of Industry Relations? How are you going to continue to foster Industry Relations?

The followings worked well for us:

- 1) Requiring each sponsored conference to organize a panel session to promote academia-industry relations.
- 2) Evaluating requests for sponsorship also on their programs for the industry.
- 3) Requesting the student branches to initiate industry relations.
- 4) Organizing various workshops to cater for the industry needs.

The following changes are considered:

- 1) Enhancing the activities of the industrial committee with a view to generating more interest from the industry.
- 2) Encouraging the industry to consider offering incentives to IEEE members and give priority to hiring IEEE members.
- 3) Initiating internship programs.
- 4) Proposing improvements in the curricula to include industry related subjects.

Success since the last meeting:

- 1) We initiated serious discussions with the industry to consider the above mentioned changes, and are very hopeful that the industry will become more active. Specifically, we are in final stages of putting together an internship program by a major industry player.

We plan to implement the followings:

- 1) Organize workshops on topics of interest for the industry.
- 2) Encourage the industry to actively participate in organizing conferences.
- 3) Organize panels and webinars by the industry for students and Young Professionals.

What activities/programs/initiatives work well in your Section to Attract and Support Future Members, e.g., Students and Young Professionals? What changes would be required by IEEE/the Region/your Section to better Attract and Support Future Members? What were major successes since the last meeting in terms of Attracting and Supporting Future Members? How are you going to continue to support Students and Young Professionals?

The followings work well for us:

- 1) Providing incentives such as giving discounts for purchasing books and registration fees of sponsored conferences.
- 2) Organizing annual National Student Counselors assemblies.
- 3) Organizing annual general Congresses during which annual awards are announced.
- 4) Facilitating renewal of IEEE membership.
- 5) Selecting highly qualified individuals based on their achievements for our annual awards.
- 6) Organizing and sponsoring students contests.
- 7) Organizing four Chapters to focus on relevant IEEE Societies.

The following changes are required:

- 1) We have not been receiving any support from Region 8 because of the past sanctions. This needs to be properly addressed with appropriate solutions.
- 2) We need the new IEEE office in Vienna to provide support (at least the airline tickets) for a minimum of 50 internationally renowned scholars to travel to Iran and give lectures on the topics of interest to our members in Iran.

We have maintained a vibrant and active IEEE Iran Section in spite of virtually no support from Region 8. In the absence of the required changes as outlined above, it would be very difficult to attract and support future members.

Future plans:

- 1) We will continue to rejuvenate the Young Professionals committee, and accord it the priority it deserves.
- 2) We will continue to apply what worked well for us, as outlined above.

What activities/programs/initiatives work well to drive the vitality and sustainability in your Section? What changes would be required by IEEE/the Region/your Section to improve Section vitality and sustainability? What were major successes since the last meeting in terms of Section Vitality? How are you going to continue to foster Section Vitality?

The followings worked well:

- 1) Sponsoring conferences.
- 2) Holding monthly meetings of the Executive Committee.
- 3) Organizing workshops and lectures on topics of interest.
- 4) Encouraging members to promote their membership grades.
- 5) Holding IEEE Day in various student branches.
- 6) Providing incentives to our members, such as discounts for purchasing books and hotel reservations.
- 7) Honoring highly qualified individuals for their achievements with annual awards.

Below changes are required:

- 1) We have not been receiving any support from Region 8 because of past sanctions. This needs to be properly addressed with appropriate solutions.
- 2) We need the new IEEE office in Vienna to provide support (at least the airline tickets) for a minimum of 50 internationally renowned scholars to travel to Iran and give lectures on the topics of interest to our members in Iran.

We have maintained a vibrant and active IEEE Iran Section in spite of virtually no support from Region 8.

Future plans:

- 1) We will continue to apply what worked well for us, as outlined above.
- 2) We will expand the local version of IEEE Iran Section Distinguished Lecturer program.
- 3) We will continue to propose improvements in the curricula of electrical and computer engineering programs of study in Iran.
- 4) We will continue to introduce different real-world problems to our members.

What are your recommendations to IEEE Region 8 and the Africa Area Chair Gloria Chuckwudebe to foster IEEE in Africa? How does your Section support IEEE Activities in Africa?

We propose the following action items to be considered by IEEE Region 8 and the Africa Area Chair Gloria Chuckwudebe:

- 1) Organize online course, webinars and workshops.
- 2) Organize student contests for both undergraduate as well as graduate students.

We stand ready to help IEEE Region 8 and the Africa Area Chair Gloria Chuckwudebe in the implementation of the above proposals, or in any other way that our help is asked for.

What services and which kind of support would you expect for Region 8 and/or your section out of the new IEEE office in Vienna, Austria? How has the existence of this office influenced your section since its inauguration last year?

- 1) We have not been receiving any support from IEEE Headquarters and Region 8 because of past sanctions. This needs to be properly addressed with appropriate solutions. We are disadvantaged as compared to other Sections.
- 2) We need Region 8 and/or the new IEEE office in Vienna, Austria to provide support (Airline tickets at the minimum) for at least 50 internationally renowned scholars to travel to Iran and give lectures on the topics of interest to our members in Iran.

Outstanding new initiatives, Special Achievements, Anniversaries.

We need to resolve the outstanding issues pertaining to sanctions and get the much needed support from the IEEE Headquarters and Region 8.

We also need to reactivate access to the IEEE Digital Library for Iranian universities as another action item of top priority.

Future Plans:

- 1) Invite distinguished national/international scholars to present technical and scientific lectures and present webinars.
- 2) Promote international collaboration between IEEE Iran Section committees with their counterparts in Region 8 and other regions.
- 3) Support Chapters to enhance their professional activities.
- 4) Expand the activities of existing Chapters in 2018.
- 5) Expand existing student chapters and establish new ones.
- 6) Enhance and foster involvement of the industry in the IEEE Iran Section activities.
- 7) Provide wider national benefits for IEEE members.
- 8) Provide online courses and webinars to complement their university education and prepare them for work in the industry.
- 9) Organize national student paper competitions (SPC).
- 10) Organize new student contests.

We have maintained a vibrant and active IEEE Iran Section in spite of virtually no support from IEEE Headquarters or Region 8.

We recently signed a Memorandum of Understanding to cooperate with IEEE UK and Ireland Section, and plan to initiate joint activities that would be beneficial to membership in both Sections.
