Malta International Airport

Malta International Airport is the only airport in Malta and it serves the whole of the Maltese Islands. It is located on island of Malta, southwest of the Maltese capital Valletta in the town of Luqa, and occupies the location of the former RAF Luqa. The airport has a single passenger terminal which became fully operational on 25 March 1992. This replaced the old terminal which is currently mostly used for cargo.

USEFUL INFO

WHAT IS THE TIME DIFFERENCE IN MALTA?

Malta is in the Central European Time Zone and uses Central European Standard Time (CET) which is 1 hour ahead of Greenwich Mean Time (GMT 1). Like all European states Malta reverts to Summer (Daylight-Saving) Time and local time is shifted forward by 1 hour. As a result, during Summer Time, Malta is 2 hours ahead of Greenwich Mean Time (GMT 2). At the end of the Summer months time in Malta is shifted back by 1 hour to Central European Time (CET) or (GMT 1).

WHAT ARE THE TIPPING CUSTOMS IN MALTA?

Tipping is customary in Malta and a gratuity of between 5% and 10%, whenever good service has been provided is reasonable. However if a service charge has already been included in the bill, a tip is not necessary. If discretion and common sense is used, you will have no problems with tipping, but it is always worth checking the individual establishment’s policy if you are unsure.

ELECTRICITY

The electrical supply is 230 volts +/- 10%.
The frequency of the supply is 50 hertz.
The three-pin rectangular plug system is used, as in Britain.

CLIMATE & WEATHER
Malta's climate is typical of the Mediterranean and is strongly influenced by the sea. The Maltese Islands have a pleasantly sunny climate with a daily average of around 12 hours sunshine in summer going down to 5 to 6 hours in mid-winter.
Summers are hot, dry and very sunny. Day-time temperatures in summer are often mitigated by cooling sea breezes.
Spring and autumn are cooler, except when the occasional Scirocco wind from Africa brings unseasonably high temperatures and humidity. Winters are mild, with the occasional short cold spells brought about by the north and north-easterly winds from central Europe. Annual rainfall is low, averaging 568mm a year. Bathing in the sea is quite possible well into the 'winter' months, and the peak beach season can last until mid- to late October.

HISTORY

The history of Malta is a long and colourful one dating back to the dawn of civilisation.

The Maltese Islands went through a golden Neolithic period, the remains of which are the mysterious temples dedicated to the goddess of fertility. Later on, the Phoenicians, the Carthaginians, the Romans and the Byzantines, all left their traces on the Islands.

In 60 A.D. St. Paul was shipwrecked on the island while on his way to Rome and brought Christianity to Malta. The Arabs conquered the islands in 870 A.D. and left an important mark on the language of the Maltese. Until 1530 Malta was an extension of Sicily: The Normans, the Aragonese and other conquerors who ruled over Sicily also governed the Maltese Islands. It was Charles V who bequeathed Malta to the Sovereign Military Order of St. John of Jerusalem who ruled over Malta from 1530 to 1798. The Knights took Malta through a new golden age, making it a key player in the cultural scene of 17th and 18th century Europe. The artistic and cultural lives of the Maltese Islands were injected with the presence of artists such as Caravaggio, Mattia Preti and Favray who were commissioned by the Knights to embellish churches, palaces and Auberges.

In 1798, Napoleon Bonaparte took over Malta from the Knights on his way to Egypt. The French presence on the islands was short lived, as the English, who were requested by the Maltese to help them against the French, blockaded the islands in 1800.

British rule in Malta lasted until 1964 when Malta became independent. The Maltese adapted the British system of administration, education and legislation.

Modern Malta became a Republic in 1974 and joined the European Union in May 2004.

Caravaggio’s Masterpiece

The Beheading of St. John the Baptist is considered by many as Caravaggio’s masterpiece.

ST JOHN’S CO-CATHEDRAL

St. John’s Street, Valletta, Malta

Described as the first complete example of the high Baroque anywhere, St. John’s Cathedral epitomises the role of its original patrons, the Knights of St. John.

The Cathedral is testimony to the talent of Maltese military architect Gerolamo Cassar, with Mattia Preti’s intricately carved stone wall designs, as well as the painted vaulted ceiling and side altars with scenes from the life of St John. The Cathedral also houses one of Europe’s most impressive and famous art works – Caravaggio’s Beheading of St. John the Baptist.

The Cathedral was a shrine to the Knights, as many sons of Europe’s noble families from the 16th to 18th centuries lie buried here. Their intricate, marble-inlaid tombstones form a magnificently crafted pavement. Also a resting place to the founder of Valletta, Grand Master Jean Parisot de la Valette, his tomb lies in the crypt, a quiet sanctuary and place of contemplation away from the busy streets outside.
NIGHT LIFE

VALLETTA | PACEVILLE | MDINA | WATERFRONT

PACEVILLE

Paceville is a district in St Julian’s which is the main nightlife hub in Malta, populated with nightclubs, bars, pubs and restaurants. Paceville is located between Spinola Point and Dragonara Point, delimiting Spinola Bay and St. George’s Bay respectively. Paceville is seen as a party destination in Europe and is a popular place for locals and tourists alike.

Strait Street

Strait Street, Valletta, Malta

Valletta’s Strait Street is easily the most famous street in Malta. Known as Strada Stretta in Maltese, the street was the pinnacle of nightlife amongst American and British military men and Maltese frequenters between the 19th and mid-20th century.

Strait Street represents a fascinating period of time in Malta’s history – one in which people of different nationalities and classes intermingled together in a social context. This was a new kind of multiculturalism, one that was different from previous centuries of simply being dominated by power after power. This was more integrated, more inclusive. Strait Street became a hub in which English, Italian, and Maltese could co-exist. Certainly, this level of interaction with soldiers meant that many more Maltese learnt the English language – from barmen to the Maltese ladies who pined after the foreign sailors.

Does Strait Street exist today? Yes, and it’s just as vibrant as it ever was! Nowadays the popular area still hosts bars, live music, and even festivals. We’re pretty sure that there’s less debauchery, though.
