

IEEE Region 8 Student Paper Contest 2019 Final Results

The oral presentations of the finalists took place during **EUROCON2019** at NoviSad, Serbia between July 1 and July 3. The jury members were *Prof Anastas Mishev*, *Prof Vera Markovic* and *Prof Paul Micallef*. Here are the results:

- **FIRST PRIZE and award of \$800**

Ariane de Vroede, KULeuven SB

"A 94 GHz Voltage-Boosted Energy Harvester in 45 nm CMOS Achieving a Peak Efficiency of 21.2% at – 8.5dBm Input Power".

- **SECOND PRIZE and award of \$500**

S. Akhavan, M. Kamarei, H. Soltanian-Zadeh, University of Tehran SB

"Spatio-Temporal Modeling of Absence Epileptic Seizures Using Depth Recordings".

- **THIRD PRIZE and award of \$200**

Gabriele Mosaico, Matteo Saviozzi, University of Genova SB

"A hybrid methodology for the day-ahead PV forecasting exploiting a Clear Sky Model or Artificial Neural Networks".

The student branch of the winner – KULeuven SB – also gets the 'Dick Poortvliet Award' of \$250.
