

Chapter Coordination Subcommittee (ChCSC)

Albert Lysko

Goals

- Getting identity and creating better relationships with Societies / Councils for two-way transfer of information Achieved and in progress:
 - Got participation & information;
 - Chapters Coordination workshop; - was held with a number of Societies (represented by their reps), as a part of the R8 meeting in Malta on 2019-03-15. The timetable and a shortened version of the presentation are available at <http://ieeer8.org/download/26446/> . Around 20 Chapter Chairs were present. They learned a substantial. A report for the workshop has been produced and shared with R8 leadership (available at <http://ieeer8.org/download/26446/>).

Points of Concern

- Interaction with Societies need more effort;
- Did not manage to participate in the training sessions of major IEEE Societies (to learn what they do to be successful and how they do it) due to cancellations;
- R8 did not support second Chapters Coordination workshop.

Status on new chapters created since last meeting

46

Chapters dissolved since last meeting

7

Proposals for improvements

Value Proposition - Support Sections and Societies with

- Inactive Chapters - Facilitate Societies and Sections in revitalization of inactive chapters. Priority based for a manageable and focused approach - Chapters close to dissolution, Chapters with no activities \geq 1 year, Inactive Chapters in active Sections.
- New Chapters - Promote the formation of new chapters. Based on data from OU analytics and liaison with Sections.
- Best Practices - Promote best practices through SYPs, e-notices, webinars, MD coordination and other opportunities. Reward through the awards program. Coordinate with Societies.

Other Issues to report
