Dear IEEE Student Members,

We hope you've had a productive and enjoyable start to the year as members of your IEEE Student Branches, and are looking forward to attending events this term.

An IEEE Student Branch is a significant commitment, requiring the effort and diligence of volunteers. To reward this positive contribution, IEEE has created several student branch awards to recognise and reward the branch volunteers. We would therefore like to keep you updated with upcoming awards for which your student branches are eligible to apply, and encourage you to nominate and participate:

- [IEEE Regional Exemplary Student Branch Award](#)

This award is to provide recognition of exemplary IEEE Student Branch operations, presented annually to each qualifying student branch in each region without limit. To qualify, a Student Branch must conform to IEEE bylaws, in addition to meeting a number of criteria (5 required and a further 12 out of a possible 28) detailed in the [award documentation](#). This is a fantastic award to affirm the branch within your University and IEEE Section, and a valuable asset to growing Student Branches.

- [Larry K. Wilson Regional Student Activities Award](#)

This award is to recognize in each region, the student member most responsible for an extraordinary accomplishment associated with student activities. The award is designed to recognise a particular event, program, or product of IEEE Student Activities. If your branch has undertaken an outstanding event or activity this year then do submit an application.

- [IEEE Outstanding Branch Counsellor and Branch Chapter Advisor Award](#)

This award aims to recognise dedicated efforts of branch counsellors and advisors, which exemplify the commitment of the institution to the educational, personal, professional, and technical development of students. The prize is a cash award to the top outstanding advisors and counsellors around the world. If your branch counsellor or advisor has surpassed expectations this year then consider nominating for this award.

- [The Darrel Chong Student Activity Award](#)

The purpose of this recognition system serves to change the mindset of our student groups from being number-driven to becoming value-driven and to acknowledge exemplary student activities around the world. The initiative is targeted at improving student-membership growth, which will encourage and motivate students to continue to innovate and implement meaningful ideas.

- [The IEEE Student Branch Website Contest](#)

The purpose of this award is to recognize, annually, the most outstanding student group responsible for the development of an excellent IEEE Student Branch Website for its members.

Full details on these awards and how to apply can be found on the [IEEE Students Website](#).

To nominate for the above awards, please visit the [Student Awards Platform](#)

Please note: The nomination deadline is 31st March 2020.

Should you have any questions regarding the application process, or concerning general Student Branch matters, please do not hesitate to contact us.

Best Regards,

Lee Crudgington
Awards and Contests
IEEE Region 8 Student Activities Committee.

This year there were 13 valid papers submitted by the closing date of December 15, 2019. The papers were seen by four jury members:

- Prof Mustapha Benjallali from Morocco

The jury members are rotated over a period of time depending on where Melecon and Eurocon are held. The participants were from the following countries:

Belgium, Iran, Ireland, Lebanon, Malta, Morocco, Qatar, Serbia, Slovenia, and Spain.

The five papers, chosen by the jury members, that will be presented at Melecon 2020 in Palermo, Italy are:
