

Section Name**Reporting Officer Name: Dr. Constandinos X. Mavromoustakis****Section Vitality**

Please provide information about the date of last Section elections, date of next elections, and do you have the practice of Vice-Chair becoming the next Section Chair. Section ExCom meetings (list them and provide brief summary if appropriate). List the activities carried out to retain and recruit members and the results obtained.

Elections take place every 2 years. Next elections planned will take place in 2022 (Dec. 2022) for the section. Since vitality is one of the three focus areas of Region 8, it is also of high priority for the IEEE Cyprus Section. For the next period we are planning the following activities:

- Continue updating our website <http://iee.org.cy> and planned new sections with newsletters' updates.
- Keep metrics related to membership development. Contact deactivated members and ask them to renew.
- Motivate members to apply for Senior Membership.
- Further enhance the collaboration between SBs.
- Organize seminars and workshops for our members.
- Teacher In-Service Program (TISP) : organize workshops in high schools
- Continue supporting the Action for Industry (AFI) initiative.
- Encourage the chapters that are not so active to organize more activities: a Chapters Coordinator has been appointed.
- Initialize and develop the process in order to be able to offer a corporate membership program -locally in Cyprus (in cooperation with the headquarters)- so that in this way different members and individuals from this industry sectors may contribute to the development of the membership numbers of the section.
- Encourage the chapters that are not so active to organize more activities.

Planning to strengthen even more the Action For Industry: 23 Internships (from companies that participated last year also) [> 7 new student members]

Students

List of Student Branches (SB) in your Section, the newly formed or dissolved SBs, if any since the last meeting reporting (Oct 2020). List the student meetings held and Section activities addressed to Students and Young Professionals.

No SB, newly formed or dissolved exist.

Affinity Groups

List of Affinity Groups (YP, LM, WiE, SIGHT, etc.), list of SB AGs, newly formed or dissolved AGs/SB AGs, if any since the last meeting reporting (Oct 2020). List the activities intended to support affinity groups.

No SB AGs, newly formed or dissolved AGs/SB AGs exist.

The IEEE Cyprus Section supports the Action for Industry (AFI) initiative IEEE Region 8 in order to rejuvenate IEEE's involvement with the industry and develop strong working partnerships between IEEE and industry. The IEEE Cyprus Section in 2021 continued to implement the MOU agreements for internship programs with 11 companies from the telecom, energy and computer sectors and has 34 internships for our student and YP members were successfully completed. The IEEE Cyprus Section during the IEEE Day will organize a booth exhibition from established and start-up companies, along with a social event, for all our members.

Chapters

List of Chapters and SB Chapters in your Section, the newly formed or dissolved Chapters, if any since the last meeting reporting (Oct 2020). Indicate how many have reported on time and received rebate. Highlight some of the activities.

The formation of the IEEE Cyprus Section, IEEE Intelligent Transportation Systems Society Chapter has been formally approved in April 2022.

Industry

List the activities carried out to foster relations with Industry and the results obtained.

The IEEE Cyprus Section in 2021, even under the disastrous effects of the pandemic continued to implement the MOU agreements for internship programs with 11 companies from the Telecom, IT, FOREX, Energy and Computer sectors and has 17 internships for our students and YP members were successfully completed.

It is important to depict that many industry sectors in Cyprus continued offering internships after summer period and following a dormant period as a result of the pandemic followed by multiple lock downs (three significant in Cyprus). Other industry sectors, likewise last year could not accept any internships because of the pandemic and since most of them are working remotely. However, it is important to mark-out that even under these conditions there were University branches that encouraged and supported significantly the implementation of interns in collaboration with industrial sectors and specific companies. A well noted participation was for the UCy and UNIC student branches that had representative participations in the internship programmes, as well as significant participations were exhibited by the other SB in Cyprus.

Activities since the last report

Highlight some of the activities in your Section, with special attention to the things that work well, and things that don't, so that your acquired know-how can be used by other Sections.

The IEEE Cyprus Section in 2021 continued to implement the MOU agreements for internship programs with 11 companies from the telecom, energy and computer sectors and has 31 internships for our student and YP members were successfully completed. The IEEE Cyprus Section during the IEEE Day will organize a booth exhibition from established and start-up companies, along with a social event, for all our members.

The Section supports financially the chapters and student branches in organizing technical activities for our members. We stress that during those activities special attention should be given to recruitment. Our MD officer is very active in contacting members that did not renew in order to do so. We are happy that both our retainment and recruitment goals are being achieved. Finally it is worthy to mention that the formation of the IEEE Cyprus Section, IEEE Intelligent Transportation Systems Society Chapter has been formally approved in April 2022.

Planned activities

Highlight some of the future activities and initiatives in your Section.

The IEEE Cyprus Section will continue sponsoring events, activities, competitions and seminars, related to new technologies and other issues that are for the interest of the students, organized by the student branches in cooperation with their Universities. The implementation of internship and mentoring programs through the Action for Industry Initiative will provide value to students and young professionals. Through the internships they will be able to acquire working experience and opportunities for future employment. We have appointed the outgoing Chair of our very successful University of Cyprus Student Branch as the Student Branches coordinator to stimulate all Student Branches to further upgrade their activities. The seminars organized frequently by the University of Cyprus Student Branch are especially successful for student recruitment. Other two student branches have provided they are report's for their plans ahead indicating specifically major events where the recruitment of new students and members for the IEEE Cyprus section will be feasible.

Since vitality is one of the three focus areas of Region 8, it is also of high priority for the IEEE Cyprus Section. For the next period we are planning the following activities:

- Continue updating our website <http://ieee.org.cy>
- Keep metrics related to membership development. Contact deactivated members and ask them to renew.
- Motivate members to apply for Senior Membership.
- Establishing industry ambassadors and student branches liaisons so that they keep and create the procedures to achieve a stable cooperation between students and industry representatives
- Initialize and formalize the processes for offering a more noticeable social contribution so that in this way the section has an extrovertial behavior and attracts potential registrations.

- Further enhance the collaboration between SBs.
- Organize seminars and workshops for our members.
- Teacher In-Service Program (TISP) : organize workshops in high schools.
- IEEE Cyprus Section will be offering to the best graduate of each local University the ‘IEEE in memory of Dr. Elias Kyriakides’ award.
- Continue supporting the Action for Industry (AFI) initiative.
- Initialize and develop the process in order to be able to offer to industrial sectors a corporate membership program -locally in Cyprus (in cooperation with the headquarters)- so that in this way different members and individuals from this industry sectors may contribute to the development of the membership numbers of the section.
- A Section Conference Coordinator is required to be appointed according to the IEEE Region 8 Conference Coordination Subcommittee Chair. [Action taken] A Section Conference Coordinator has been appointed.
- Encourage the chapters that are not so active to organize more activities: [Action taken] A Chapters’ Coordinator has been appointed and already initiated forthcoming events and activities.

Planning to strengthen even more the Action For Industry: 29 Internships (from companies that participated last year also) are planned ahead as per the initial will of the industrial stakeholders [>the latter will result to new student members]

How Region 8 can be of help to your Section, members, and activities

List any challenges you Section is facing and what support is required from the Region 8. Please, also, give us your suggestions for agenda items that you want to be discussed during the R8 Committee meeting.
