

119th IEEE R8 Committee Meeting
Cairo, Egypt, October 15-16, 2022

**REGIONAL STUDENT PAPER
CONTEST**

Vera Marković
R8 SPC Coordinator

Impressions of one of the SPC 2022 finalists:

“The SPC oral finals were my first real steps into academia. It was a wonderful experience, from the research to the presentation of the results to other experts in the field.

The trip itself and the time spent with foreign colleagues was also a special experience that I will never forget”.

Importance and benefits

- Students encouraged and supported to work on an engineering topic and write a publication
- Help students to develop professionally and personally in ways not possible through traditional lectures
- Possibility for students to be rewarded
- Benefits for IEEE OUs – SBs and Sections (recognition of OOs, increasing the visibility of OUs; promotion of IEEE in the academic community - attracting new members)

Paper submission

All the rules on how an SPC paper should be written and submitted can be found on the R8 SAC website:

<https://ieeer8.org/category/student-activities/sa-spc/>

Judging

- written part
- oral part

Written part:

- Submitted papers are graded by an international jury, ranking list is made and 5 finalists are announced

Oral Finals:

- 5 finalists are invited to present papers
- Traditionally, at MELECON or EUROCON
- The same jury makes the decision about winners, on the basis of both, written and oral part

SPC JURY 2022

Paul Micallef,
Malta

Mike Hinchey,
Ireland

Giambattista Gruosso,
Italy

+

SPC Coordinator

This year, the final part (oral finals) was held in person within **MELECON 2022, Palermo, Italy**

First prize - 800\$ for the author + 250\$ for his SB:

Imperial College London SB

Second prize - 500\$ for the author from

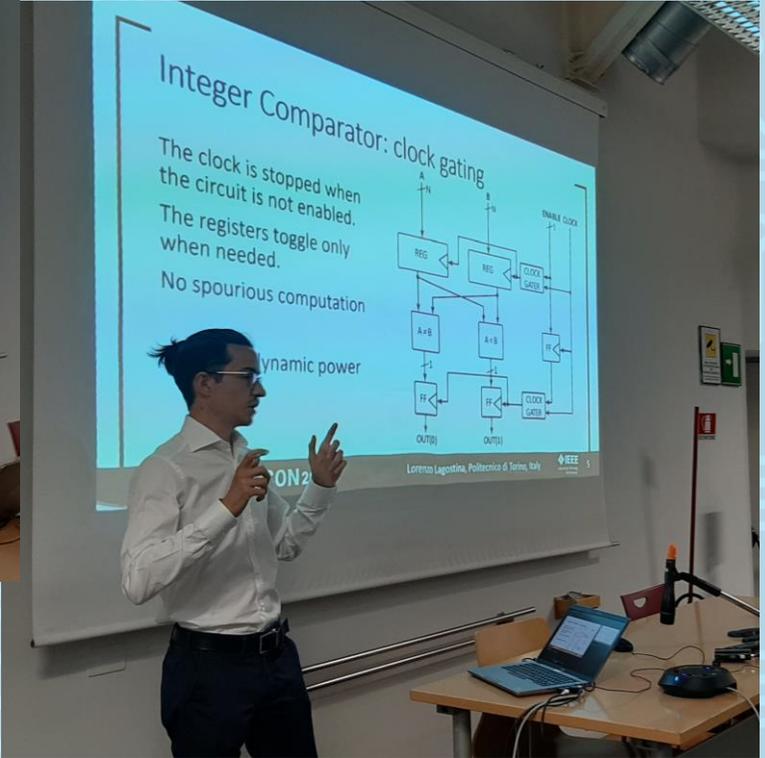

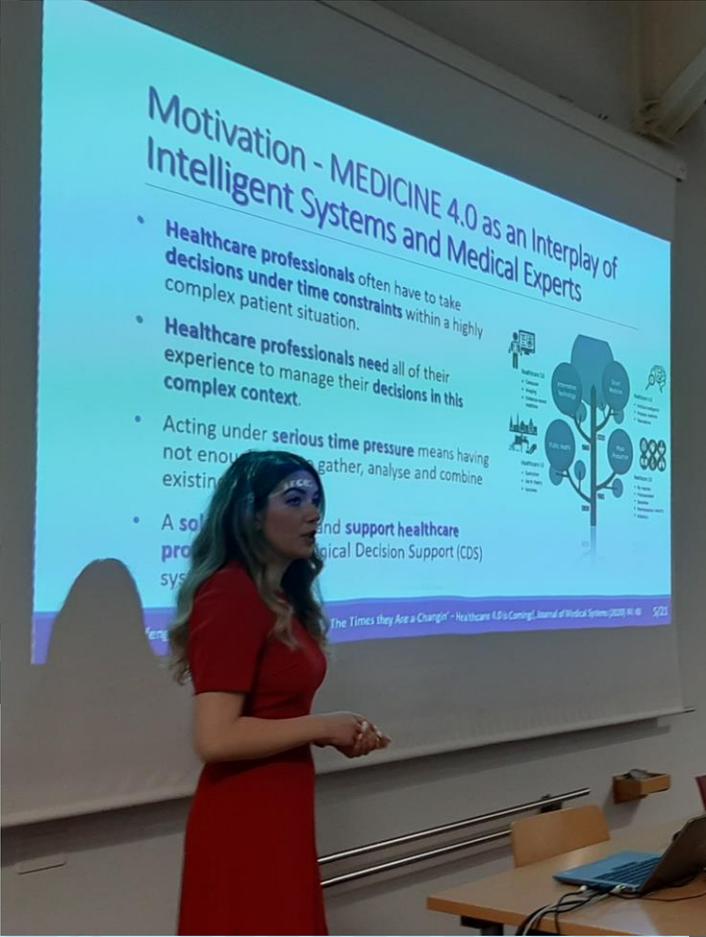

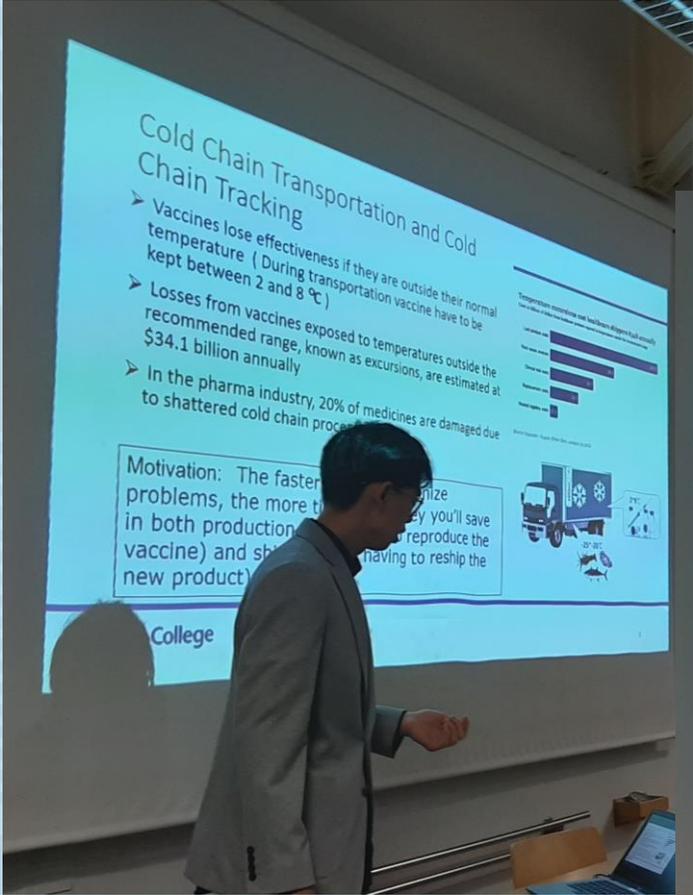

Politecnico di Torino SB

Third prize – 200 \$ for the author from the

University of Niš SB

Papers of all 5 finalists were published in the MELECON 2022 Proceedings and in the IEEEExplore digital library after the conference.

Local Student Paper Contest Events Program

The program aims to:

- Giving incentives to IEEE Region 8 Sections and Student Branches for establishing **local student paper contests**;
- Provide an **opportunity to students** to showcase their technical skills;
- **Promote** Regional Student Paper Contest, as well as increase awareness and participation (last years, most papers were submitted from SBs from Slovenia, Belgium, and Serbia – the local SPC events are already organized there))

 IEEE R8 SAC

 IEEE R8 Student
Activities Committee

- Applicants to this program can be either **Sections** or **Student Branches**
- The application should include an **endorsement letter** (for sections - by **Section Chair, SSAC** or **SSR**; for student branches - by **Student Branch Chair** or **Counselor**)
- Best papers of these local events **have to be submitted** in the **Regional Student Paper Contest**.
- Grant: up to **300\$** per Student Branch; up to **500\$** per Section

Up to now:

8 applications

7 approved:

- Slovenia Section (500\$)
- Imperial College London SB (UK) (300\$)
- University of Nis SB (Serbia) (300\$)
- Manchester SB (UK) (300\$)
- Multimedia University of Kenya SB (Kenya) (300\$)
- University of Birmingham SB (UK) (300\$)
- University of Tartu SB (Estonia) (300\$)

Local SPC events:

Last date for proposal submission: **October 20th**

Event Implementation: **by late November**

Reporting Submission: **by November 30th**

Funding Release: **December 2022**

*Time to think about **SPC 2023 !***

The deadline
to send submissions:

December 1

Thank you for
your attention!
