

IEEE Region 8 AdHoc on EPICS in IEEE

Welcome to the Committee!

EPICS - Engineering Projects in Community Service helps fulfill the IEEE core purpose of fostering technological innovation and excellence for humanity. EPICS provides funding, support, mentorship and visibility for engineering projects.

Region 8 created this AdHoc with the purpose of expanding on the above vision within Europe, Middle East and Africa. Chair of the AdHoc is the immediate past-chair of the EPICS in IEEE Committee within EAB. At the moment, the AdHoc has six committee members who meet monthly to discuss and take the necessary steps in order to spread awareness and help sections/volunteers submit proposals.
