

## Portugal Section

**Reporting Officer Name: Rodolfo Oliveira**

### Section Vitality

Elections: The last Section elections were in December 2021. The new ExCom started its position in Jan 2022. The Vice-Chair became Chair. The date of the next election is planned for November 2023.

ExCom Meetings: ExCom meets at least once per month, but usually we meet bi-monthly; Each member of ExCom has a specific set of subjects to follow up, e.g. communication and students committees; chapters; affinity groups; financial issues (treasurer); industry; education and professional activities. We hold two extended meetings (with chapters and affinity group chairs) per year, normally one in Jan/Feb and another one in Jun/Jul.

## Affinity Groups

List of Affinity Groups

- YPs, LMAG, and WiE
- SB AGs: WiE-IST, WiE-UC, WiE-UP, WiE-UM, WiE-ISCTE, WiE-UA, WiE-ISEP

Newly formed AGs/SB AGs: LMAG

IEEE-PT ExCom needs to support in a different way Young Professionals since this OU was very inactive and lacks activities in the past two years. The IEEE-PT ExCom held at least two meetings with all section OUs and requested the YP community in Portugal to send us ideas on how to improve or create new activities to empower this particular group in our section. In December 2022, we started to create a group of YP members to actively participate in the reorganization of the YP AG. We organized elections this year and the YP AG officers were elected and already reported in Vtools.

In July 2022, we started conversations with a few Portuguese members to explore the opportunities available in SIGHT and plan a possible formation of the interest group. So far we are still managing this opportunity.

In January 2023, we submitted a petition to create an LMAG in Portugal, which was already approved, and in the next months, we will organize elections.

## Chapters

The activities supported by the chapters included the organization of international conferences, the organization of lectures and keynote presentations in several Portuguese educational and non-educational institutions, and technical-scientific workshops dedicated to specific topics. The chapters are actively involved in joint activities with the societies, including the organization of talks involving Distinguished Lecturers.

Currently, all 15 Section’s Chapters are active and all officers have been recently elected. We highlight the current status of the Oceanic Engineering Chapter, which is now active after 4 years of inactivity.

The SB Chapters are listed as follows.

Instituto Superior de Engenharia de Lisboa,EMB18
Instituto Superior Tecnico, C16
Instituto Superior Tecnico, EMB18

### Industry

Regarding the relations with the Industry, in the last year we celebrated several MoUs with companies and new MoUs are being currently negotiated. The MoUs include several types of cooperation, including technical activities with students, YPs, and members, and the participation in several activities organized by the Section (e.g. Engineering Day, MSc/PhD Awards, LBM, Leadership Camp, etc.).

### Diversity, Equity and Inclusion

Currently, approximately 20% of the Portugal Section members are female. The Section is now working closely with WIE to leverage its’ activities and attract more female members.

### Activities since the last report

The Section is organizing several activities as described in the summary presented in “Section Vitality”. Some of the activities of special interest include:

- Outstanding MSc Thesis Award 2022 (call opened on July 1, 2022)
- Leadership Camp (October 1-2, 2022)
- Engineering Day (November 25, 2022)
- Extended ExCom meeting (February 11, 2023)
- Excom meetings every month
- Student Branches meetings every month
- Local Board Meeting (March 4-5, 2023)

- SBs Counselours Meeting (January 31, 2023)

Besides the listed activities, the Section has evolved the new website (<https://ieee-pt.org/>), where our activities are promoted apart from other useful information for our OUs and additional information to our members (e.g. past Executive Committers and a list of the Section Awards over years).

### **Planned activities**

At this moment several activities are in progress, several to be fulfilled before the end of 2023, notably:

- IEEE Portugal Engineering Day - a full-day hybrid event planned for November 2023
- Leadership camp 2022 - 2-day hybrid student event planned for the second semester of 2023
- Outstanding MSc Thesis Award and Best Ph.D. Thesis Awards (evaluation of the submitted theses and notification of the awardees by the mid of November 2023)
- Organization of multiple seminars under the initiative “Engenharia em Discussão”
- Portuguese Summer Congress, an event planed for July, focused on the synergies of common interests shared by Students, YPs, and Industry.
- Planning and management of the organization of MELECON 2024, to be held in Porto

### **How Region 8 can be of help to your Section, members, and activities**

R8 could promote remote regional hackathons with industrial mentors. This could also be an add-value initiative for IEEE students and young professionals members.

### **Any other issues of interest**
