Industry
- IEEE Tunisia section established new partnerships with Novation city, Clevery Training, TPM, and Orange.
- 2 Agreements were signed by the IEEE president, during his participation in the R8 SYP Congress in Tunis.
- Networking meetings were organized to allow us to present IEEE to the company’s stakeholders and to allow our student members to network and to better understand how to succeed in the professional career.
Diversity, Equity and Inclusion
IEEE Tunisia Section is committed to welcome, engage, and reward all who contribute to the IEEE’s field of interest, without regard to race, religion, gender, disability, age, national origin, sexual orientation, gender identity, or gender expression.
IEEE Tunisia Section ensures a good equilibrium of the percentage of female members and volunteers as well as geographic distribution.

Activities since the last report
- 21-23 May 2023: 3rd International Maghreb Meeting of the Conference on Sciences and Techniques of Automatic Control and Computer Engineering (MI-STA) https://mista-con.org/

Planned activities
- 12-14 October 2023: IEEE International Conference on Artificial Intelligence & Green Energy (ICAIGE) https://icaige.recherche-scientifique.com/
How Region 8 can be of help to your Section, members, and activities

- Help with contacting European companies in order to provide internship opportunities and study tours to our students
- Help with companies (potential patrons) contacts to support IEEE conferences organized in Tunisia
- Support Twin SB initiatives
- Allow more students and professional members to apply for R8 VCF fund in order to participate to IEEE Conferences organized within the region (not only R8 conferences)

Any other issues of interest

- Reduce the e-membership fee for professional members in developing countries
- Provide members 1 free online course each year. For first year, we recommend “IEEE English for Technical Professionals” course
