Section OpCom meetings were held monthly. This year elections will be organized for the Section Subunits.

Despite all the difficulties, this year we carried out emailing to members on the membership development. Our goal was to communicate the benefits of membership.

At the moment, there is a steady positive membership trend:

421 members in Dec 2023 vs 397 Members in Dec 2022

436 members in Jan 2024 vs 403 in Jan 2023 vs 401 in Jan 2021

Industry

We are building cooperation with industrial partners through our IEEE conferences. IEEE Ukraine Section assisted the Ukrainian National Standardization Center (State Enterprise “Ukrainian Scientific-Research and Training Center for Standardization, Certification and Quality Problems”) to join IEEE Government Engagement Program on Standards (GEPS) with official Observer Status.

Activities since the last report

We have successfully organized 8 IEEE conferences and continue to implement the humanitarian projects for education and projects for sustainable Section Subunits operations.

Planned activities

We plan to appoint Section appointed Committees for 2024 operation year. We plan to draw up a plan of IEEE Ukraine Section Conferences for 5-10 years in order to work more systematically in this direction. The plan should be finalized by the middle of the year. We are focused on completing a humanitarian project to support schoolchildren.

How Region 8 can be of help to your Section, members, and activities

It would be important to create R8 scholarships and grants for scientists and engineers from countries in crisis.
