- Sergii Grybniak, Treasurer

This is webpage of election results: <https://iee.org.ua/2023/12/31/4966/>

Despite all the difficulties, this year we carried out emailing to members on the membership development. Our goal was to communicate the benefits of membership.

At the moment, there is a steady positive membership trend:

468 members in Jan 2025 vs 436 members in Jan 2024 vs 402 in Jan 2023

288 members in Feb 2025 vs 278 members in Feb 2024 vs 235 in Feb 2023

IEEE Ukraine Section and its Subunits (Chapters, Affinity Groups and Student Branches) successfully submitted financial, officer and meeting reports.

Industry

We are building cooperation with industrial partners through our IEEE conferences.

Diversity, Equity and Inclusion

The composition of the Section committees and chapters represents a wide geography of volunteers from all over Ukraine.

Activities since the last report

5 IEEE conferences were organized.

The IEEE Ukraine Section IEEEExtreme Competition Subcommittee, formed in 2024, has done a great job of organizing the preparations for the competition. Overall, the Ukrainian teams performed brilliantly. Three teams are in the top hundred! OGBRAM team became the 2024 IEEEExtreme winner of the global competition!

Planned activities

Conferences: The Section Committees continue to actively work towards coordinating conferences and educational activities. We plan to draw up a plan of IEEE Ukraine Section Conferences for 5-10 years in order to work more systematically in this direction. The plan should be finalized by the end of the year. An important aspect is local Section quality control of conference proceedings.

Education: We are focused on completing a humanitarian Electronics project to support schoolchildren education. The possibility of applying for an IEEE EPICS grant is being considered.

Awards: We are working on creating an IEEE Section Award system.

Students and Membership Development: In 2025-2026, we are focusing on the keep save and development of Student Branches Membership. This includes support through grants.

History: We have also applied for the Milestone and are working on processing new applications. At the same time, we are building cooperation with the State Polytechnic Museum.

How Region 8 can be of help to your Section, members, and activities

It would be important to create R8 scholarships and grants for scientists and engineers from countries in crisis.
