

IEEE Region 8

Technical Activities Strategies

Tiziana Tambosso

Region 8 Committee Meeting Spring 2025

Budapest, 5 April 2025

Main focus area

Expand cooperation with the other IEEE Regions

sharing best practices, increasing joint projects

Promote multi-Section events and initiatives

Cooperation between section in the same geographic area to organize joint initiatives and joint projects (i.e. conferences, workshops, events, ...)

Promote Training Workshops/Events

Training is an important part of our mission. Sharing information and best practices in cooperation with IEEE CEE, ICC, IEEE EAB, IEEE SA, IEEE IEC, ...

Promote and increase Education Activity Programs

New initiatives involving Sections in STEM programs and education programs for pre-university, university and professionals. Promoting STEM education in underserved areas. Empower people with skills to tackle real-world challenges

Main focus area

Involve IEEE Societies/Tech. Councils and National Associations in R8 Conferences

Increase the number of R8 conferences like: IEEE EDUCON, IEEE ISCC (Symposium on Computers and Communications)

Expand Action for Industry programs

New initiatives for involving big enterprises but also SME and startups in R8 events

and continue the best practices of the past years (industry focused events in R8 flagship/portfolio conferences)

Increase cooperation between TA committees and with MA and SA committees.

Thank you For Your Attention!
