

IEEE Region 8 News

Maja Matijasevic

Goals

Goal description and key performance indicators.

1. *Highlight key programs and success stories*: Showcase noteworthy programs, initiatives, events, and activities within Region 8. Share best practices and inspiring success stories from local communities, aimed at engaging IEEE members across the region. Our goal is to feature 20-25 contributed articles per issue from sections and committees, resulting in a 16-page, print-ready newsletter format.
2. *Revive the Newsletter*: After a hiatus, the newsletter will be revived in 2025, with at least two issues planned—one in June and another in December—each consisting of 16 pages.

Progress against goals since the last report

No issues were published in 2024.

Committee of R8 Specific Issues

New Associate Editors are needed to support content development.

Points of Concern

Participation from Associate Editors is crucial to actively solicit stories and seek (co)authors for articles on general interest topics, high-profile interviews, and more.

Proposals for improvements

Encourage volunteers from R8 committees and ad-hoc committees to use Region 8 News to promote their activities and solicit content contributions from other members.

Other Issues to report

No other issues to report.
