Life Members (LM)

Chair: André Sopczak | andre.sopczak@cern.ch | **CERN**, IEAP CTU

An **IEEE Life Member** is a special honor designation for long-standing members of the IEEE (Institute of Electrical and Electronics Engineers). It recognizes those who have demonstrated a sustained commitment to the organization over many years.

It is not a separate membership “grade” you apply for; rather, it is a status bestowed automatically when you meet specific age and tenure requirements.
