Article Title

Switzerland's LMAG is sponsoring and contributing to the extension of the ENTER National Museum of Consumer Electronics, opening in new premises by the end of 2023 in Derendingen

Article Text

Last June 2022 at the General Assembly of Switzerland's IEEE Section in Solothurn, a five year collaborative agreement between the Section and the Foundation of the ENTER Museum was accepted by the membership, entailing a donation of the Section to the Foundation and active participation of LMs in the build up of the offer of historical devices backed with personal stories and interviews from the involved Swiss engineers to be displayed at the Museum. A timely description of the project has been published on the Institute, see below: <https://spectrum.ieee.org/switzerlands-museum-of-consumer-electronics>. Any IEEE members showing their IEEE membership card at the desk of the actual Museum in Solothurn, closing on May 2023, will enjoy free access. See www.enter.ch
